EXPERIENCE

JUNIOR FULL STACK DEVELOPER • HOLLINGWORTH ACADEMY • 1ST FEBRUARY 2016 – CURRENT

Started as an apprentice, then became a Cloud Technician and now a Full Stack Developer. Working as a full stack developer working with Active Directory, Server management, Office 365, Azure (managing the Office 365 and Azure platforms), NodeJs, JavaScript, SQL, NoSQL, helping staff with IT enquiries. Also working with Google Admin to manage the Google project.

Created the school website in React and Azure Functions connected to a SharePoint site where staff can add data which is then added to the website after approval.
